

Rosel John Candoy

Application Developer

Winnipeg, Manitoba, Canada · r.johncandoy@outlook.com · linkedin.com/in/rjcandoy · github.com/arzzzae

SUMMARY

Application developer with nearly a decade of experience designing and building web and desktop software across .NET (MVC, Web API, Blazor, WinUI3, MAUI), modern JavaScript (React, Angular, Vue), relational and document databases, and Microsoft Azure. Lately building with Python and Flask, weaving AI/LLM tooling into my workflow to ship faster.

EXPERIENCE

Application Developer

Nov 2025 — Present

Exchange Technology Services · Winnipeg, Manitoba, Canada · Hybrid

- Designing, building, and maintaining application software as part of a hybrid development team.

AI & Cloud Solution Developer

Nov 2023 — Nov 2025

Clear Concepts · Winnipeg, Manitoba, Canada

- Crafted and implemented scalable, AI-powered applications built on Azure OpenAI services.
- Integrated LLMs into diverse application environments and existing infrastructure.
- Solved complex AI application challenges and optimized system performance.

Cloud Solutions Developer

Apr 2022 — Dec 2023

Clear Concepts · Winnipeg, Manitoba, Canada

- Built Microsoft Teams applications and a WinUI 3 desktop application.
- Developed cloud solutions on Azure App Service, Cosmos DB, and Azure Functions.
- Integrated deeply with Microsoft 365 and Office 365 through the Graph API.

Frontend Developer

Aug 2021 — Apr 2022

Clear Concepts · Winnipeg, Manitoba, Canada

- Rewrote and updated app frontends using React.js and its ecosystem.
- Aligned application UI with the Microsoft Fluent Design Language.
- Applied UI frameworks including TailwindCSS and Bootstrap.

Solutions Developer

Jul 2016 — Jul 2021

Core49 Software Design & Development, Inc. · Winnipeg, Canada Area

- Built and integrated custom software with client systems including Microsoft AD and Dynamics.
- Created a real-time auction web application using SignalR, Angular, and .NET Core API.
- Built a data-transformation tool exporting to PDF, Excel, and Word.
- Developed and shipped a Xamarin mobile app to the Google Play and Apple App stores.
- Earned HIPAA certification to securely handle US medical clients' patient data.

SKILLS

.NET	ASP.NET · WebForms · MVC · Web API · Blazor · Razor Pages · WPF · WinUI3 · MAUI · Xamarin · XAML · XSLT
Web	React · Angular · Vue · jQuery · HTML · CSS · Tailwind CSS · Flask
Languages	C# · TypeScript · JavaScript · Python · Visual Basic
Azure / Cloud	App Service · Azure Functions · Blob Storage · Communication Services · Application Insights · Edge CDN · AI Foundry
AI / LLM	Embeddings · Chat completions · RAG workflows · GitHub Copilot · Claude Code · Google Antigravity
Databases	SQL Server · MySQL · MongoDB · Cosmos DB · Relational DBs · Document stores
Integrations	ConnectWise · REST APIs · SaaS integrations
